

Senior Consultant (m/w) SAP Cloud Platform

4U-Consult Services GmbH located in Hirschberg and Karlsruhe is specialized in SAP technology and SAP development. As an owner-managed and small-medium sized company, we are extremely focused on the quality of our services. Our quality awareness is the essential condition for a sustainable cooperation with our customers.

Because the SAP Cloud platform is based on an open standard technology, it facilitates to realize quickly economical efficient solutions, which are beyond the common lifecycle of the Enterprise Management system. For example independent Java applications, IoT scenarios or integrative solutions with FIORI, SAP UI5 or JavaScript.

We want to enlarge our team and are instantly looking for a

Senior Consultant (m/f) SAP Cloud Platform (SCP)

Requested skills:

- Many years of working experience as SAP Consultant with technical knowledge in one or more areas below
 - SAP Cloud Platform (SCP) and related services as converged cloud
 - Management/Architecture of technical platforms
 - SAP Leonardo / IoT scenario
 - Integration scenario Cloud / On-Premise (SAP and Non-SAP)
 - Java development in SCP environment
- Experience in agile DevOp approaches is nice-to-have
- Practical experience in Cloud management as well as automation and/or maintenance of Cloud applications
